Dear Madam:

The inquiry regarding membership in our Society, on your behalf, has been received, and from the affiliations which this memorandum contains, I feel sure that yours is an interest of the very kind that we most desire to attract to our membership. I am, therefore, enclosing an application card duly seconding your nomination. If you will have the kindness to sign this, it can be presented at the next meeting of our Council, which takes place early in December.

I should be very glad to have some word as to the field in which you are interested. If we may be of service to you in the meantime, I hope you will feel free to call upon us.

Very truly yours,

Secretary.

My dear Mr. Roe.

Thank you so much
for your prompt and courteous
answer to my inquiry.

I am enclosing a Post Office
order for five dollars (\$5.00) with
the application card and hope
to be elected a member.

I am interested in the coins and
money used here during Colonial
and early American times - but
have never been able to resist

keeping any coin I thought might
be of interest. The opportunities
here for research are quite
limited - although the staff at
the Charleston Museum - and
Miss Ellen FitzGinnins head of
the Charleston Library - have
always been most kind and
helpful. Thanking you again
for your kindness I am
yours truly

Dear Madam:

Thank you for your letter of November 22nd enclosing money order and application card duly signed. This will be presented at the next meeting of the Council, and their unquestionably affirmative action will be communicated to you after the meeting of December 12th. Our by-laws provide that members elected in November and December are not to be required to pay dues for the year in which they are elected. The amount sent by you, therefore, will be applied to the payment of your dues for 1931.

I am enclosing a list of our Numismatic Notes and Monographs in case you care to purchase any of them. Does your Charleston library have a copy of Crosby's "Early Coins of America" ? - the authority of the period in which you express an interest. This is a highly important volume for any library. It is now out of print and costs in the neighborhood of thirty dollars when a copy is to be located. The expenditure is decidedly worthwhile however, and the book is one which should be in the library of your city. If you would have your librarian write me as to what material they have available it is possible that I might be able to suggest some additions which would involve a not too great expenditure of money.

Very truly yours,

Secretary.
